DETAILED ACTION

Election/Restrictions

Applicant's election of Species 14, Fig. 30 claims 1-14 and 19-25 in the reply filed on 10/26/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-14 and 19-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, it is unclear what is meant by thereabout. Thereabout what?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Adams et al U.S. Pat. No. 6,099,497.

Art Unit: 3763

Adams discloses a catheter, the catheter comprising a catheter shaft, the catheter shaft defining a first guide wire lumen (figs. 14d, 17 and 18); a rotatable sheath (156), the rotatable sheath being disposed about at least a portion of the catheter shaft and rotatable thereabout, the rotatable sheath having a length substantially less than that of the catheter shaft (figs. 14d, 17 and 18); and a secondary guide wire housing (136), the secondary guide wire housing defining a secondary guide wire lumen (136), at least a first distal portion of the guide wire housing being engaged to at least a first proximal portion of the rotatable sheath (figs. 14d, 17 and 18); as to claims 4-5, (see above figs.).

Claims 1, 4, 5 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Stone et al U.S. Pat. No. 5,843,027.

Stone discloses a catheter assembly (figs. 1-5).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 19-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Adams.

Adams discloses the assembly substantially as claimed except for various types of materials, which the sheath can be constructed.

Art Unit: 3763

It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the sheath from various materials, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

Additionally, Adams teaches that the stent may be any suitable and commercially available materials.

Furthermore, Applicant has not disclosed that the various materials provides an advantage, is used for a particular purpose, or solves a stated problem. Basically, applicant lacks criticality for the various materials.

Allowable Subject Matter

Claims 2, 3, 6-11, 13 and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
